

Product Change Notification

PCN No: 2012-10-11-01
Report Date: October 11, 2012
Subject: New Aluminum B202X Bracket

List of New / Changed Products:

All of the following bracket and displays that use the 20x2 mounting bracket:

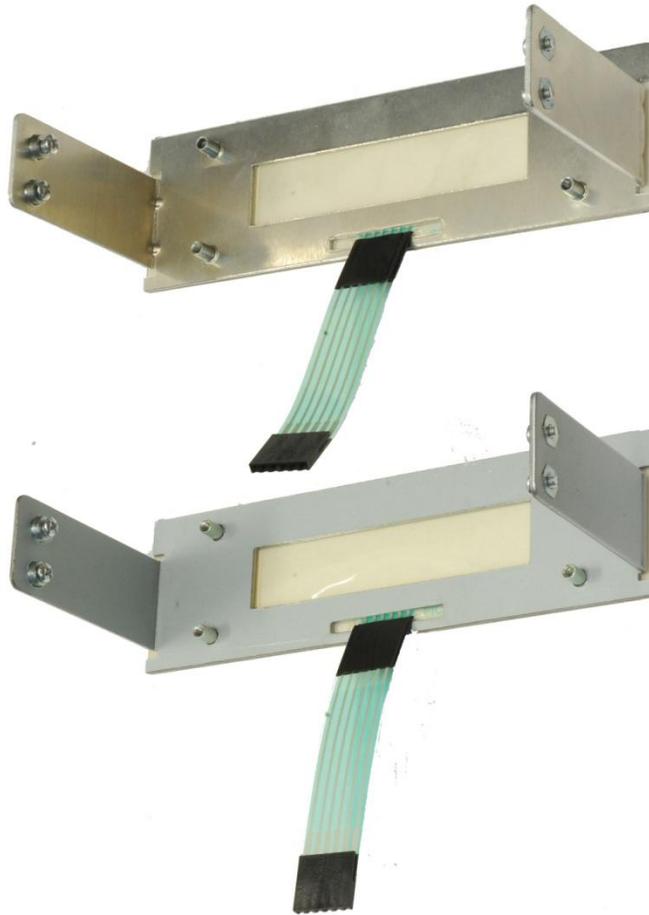

BLK202A-XX (all mode, colour, voltage and temperature variants)
BLC2021-XX (all mode, colour, voltage and temperature variants)
BVK202A-XX (all mode, colour, voltage and temperature variants)
BVC2021-XX (all mode, colour, voltage and temperature variants)
B202A-XX (all colour variants)
B2021-XX (all colour variants)

Reason for Change:

We are replacing the steel bracket with better, lightweight aluminum material.

Product Change:

Only bracket material change, no new functional and physical dimension changes; all dimensions and drawing for the new bracket are the same as the old one.

On TOP is the new aluminum B2021/B202A Bracket

Schedule of Change:

As stock is depleted.
