

Product End of Life Notification

EOL No: 2011-06-07-01

Report Date: June 7th, 2011

Subject: Wide Voltage/Extended Temperature End of Life

List of Products to be Discontinued:

VK162-12-V	VK162-12-V-E	VK202-25-V-E
VK204-25-V-E	VFD2041-V-E	LK402-25-V
LK402-25-V-E	LK404-25-V	LK404-25-V-E

Due to the power dissipation and thermal properties of the Wide Voltage (-V) regulator, the above voltage and temperature variants will no longer be offered.

The Wide Voltage, Efficient Switching (-VPT) power option is recommended for applications that require operation within a wide temperature and/or voltage range.

Schedule of Change:

June 1, 2011

Documentation Revision

Revision	Changes	Date	Author
1.0	Initial Release	June 7, 2011	Clark
1.1	Added VFD2041	June 30, 2011	Clark
